Asist Health Care

**Professional Orthopedic
Heating Aids and Belts**

At Asist Health Care we have a complete range of professional heating belts, Be it Cervical, Lumbar or Knee Heating Pad. We produce all.

Professional Knee Heating Belt

Very effective with any type of knee pain-(Osteoarthritis, Rheumatoid Arthritis, sports injuries or even common muscle soreness)

Made with premium smooth leatherette and soft fur lining to retain the heat.

Delivers heat in less than a minute.

Extensive coverage for a better heating and extended results. Targeted pain relief. Clinically proven to improve the pain and discomfort in and around the knee joint.

One size fits all.

Professional Lumbar Heating Belt

Asist Health Care Heated Lumbar Support Belt acts quickly and effectively on varied kinds of back pain like spondylosis, disc prolapse or just age related backpain.

Perfectly blended Leatherette exterior and smooth fur interior. Contours the back perfectly. Stays warm for long even after turning off the power. Targets an extensive pain area. Designed to stay in place even while you move. Varied temperature settings to suit each patient.

Comes in a universal size

Professional Neck Heating Belt

Perfect for any kind of pain radiating around the neck. Medically proven to target specific neck problems like cervical spondylosis, stiff neck, or neck pains resulting from poor ergonomics. Protective leatherette outer lining with a soft inner fur lining to retain the warmth for longer time. The heat leads to increased blood flow, accelerated tissue healing and faster pain relief. Appropriate cord length, for a smooth operation. Variable Heating Levels
One size fits all.
